PRESERVATION SYSTEMS FOR ADHESIVES & SEALANTS IN LIGHT OF THE CURRENT CHALLENGES

Vink Chemicals is a privately owned company specializing in solutions to mitigate/eliminate the effects of microbes on water based raw materials and industrial- & consumer products.

By now, Vink Chemicals is one of the largest suppliers of these systems in the world Biocides & preservatives are highly regulated products especially in Europe and North America.

We will give an overview of the current regulations with particular emphasis on 'Ecolabelling' and will present solutions based on microbiological testing to minimize the labelling as much as possible.

These solutions will be supported by Challenge Test data for a number of products, like adhesives, paints and dispersions.
